

The diagram shows a large rectangular area representing a print layout. It is divided into several zones by colored lines. A blue border is on the left and top. A green vertical line runs down the right side of the blue border. A magenta line runs horizontally across the middle. A black line runs horizontally across the bottom. A green arrow points left from the bottom right towards the green vertical line. Text labels with leader lines point to these features: 'SAFE' points to the blue border, 'TRIM' points to the magenta line, 'BLEED ZONE' points to the black line, and 'FOLD LINES' points to the green vertical line.

SAFE

DO NOT place important text or images beyond the blue border area to prevent trimming.

Anything left outside the blue box may be cut off during trimming.

TRIM

This is the actual cut of the final design.

BLEED ZONE

0.125 inch from left, right top and bottom side
Make sure to extend the background images or colours all the way to the edge of the black outline.

Please save your artwork without blue, purple grey and black frames

FOLD LINES

This is where your final print job will be folded
